Travel Health Etiquette

Our small group will be in close contact as we travel by coach, over meals, and in guided tours and presentations. Good travel health etiquette is essential for ensuring a safe and enjoyable experience for everyone on our group trip. Please adhere to these key pieces of advice:

Before the Trip

1. **Health Check-Up**: Have a medical check-up before travelling, especially if you have pre-existing conditions. Ensure you are fit to travel.
2. **Vaccinations**: Ensure you are up-to-date with necessary vaccinations for your destination.
3. **Pack Essentials**: Carry a personal health kit including hand sanitizer, masks, disinfectant wipes, any prescribed medications, and basic first aid supplies.

During the Trip

1. **Hand Hygiene**: Wash your hands regularly with soap and water, or use hand sanitizer when soap isn't available, especially before eating and after using the restroom.
2. **Respiratory Etiquette**: Cover your mouth and nose with a tissue or your elbow when you cough or sneeze. Dispose of tissues immediately and sanitize your hands.
3. **Personal Space**: Respect personal space to minimize the spread of germs. Avoid unnecessary physical contact with others.

If You Feel Unwell

1. **Report Symptoms**: If you start feeling unwell, inform your tour leader or tour director immediately.
2. **Seek Medical Attention**: Worldwide Quest and our local representatives will assist you in obtaining medical care. To ensure that any costs incurred can be claimed through your insurance coverage, you must also immediately contact your travel insurance provider for instructions. Please make sure to have insurance contact details with you.
3. **Isolation**: If you exhibit symptoms of a contagious illness, you must isolate yourself from the group to prevent spreading the illness. Your tour leader or tour director may ask you travel or dine separately from the group or to obtain a single room (if you are sharing a room with another guest.) In this case, you are responsible for all expenses relating to these arrangements.
4. **Support Each Other**: Be considerate of your fellow travelers' health needs and support each other in maintaining good health practices.

By following these travel health etiquette tips, you contribute to a healthier, more enjoyable travel experience for everyone in your group.
